

Unprecedented performance for Absolute quantification

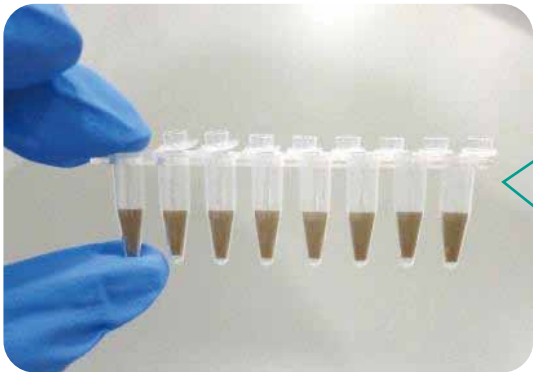

[View Application >>](#)

Clarity Plus Digital PCR system

- High resolution : 40K partitions
- High multiplex : 6 detection channels
- High throughput : 96 reactions

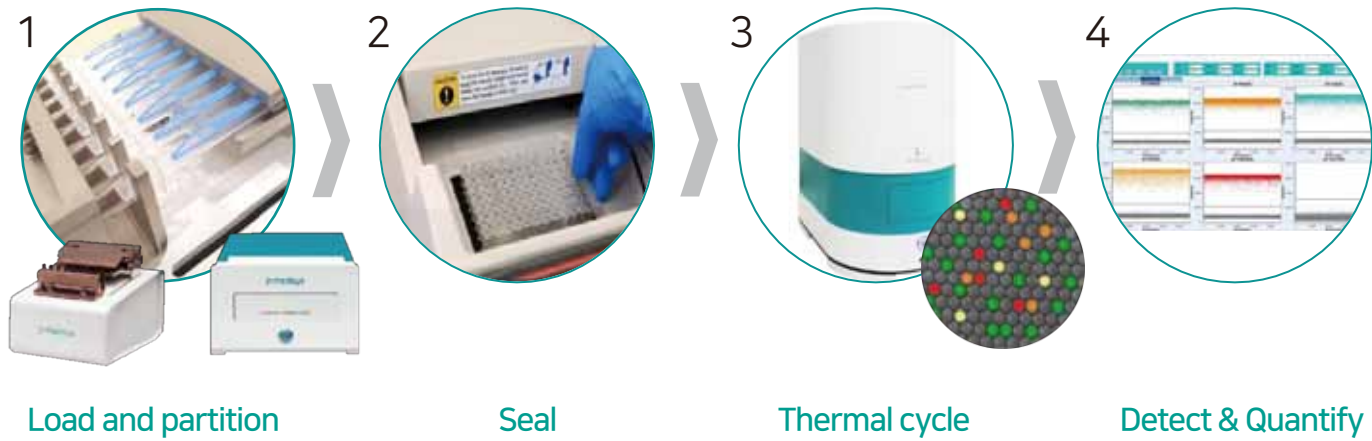

Innovative chip in a tube technology

Special chip partitions sample into 40,000 sub-reactions

- More than 40,000 partitions per chip
- Minimal sample loss
- Stable partitions
- Closed tube

WORKFLOW

Specification

Partitions per reaction	40,000
Reader throughput	32
Chemistries	TaqMan® and SYBR® Green / EvaGreen®
Detection channels	6-colors : FAM™ / HEX™ / ATTO™ 550 / Texas Red® / Cy5™ / and Cy5.5™

절대 정량에 뛰어난 성능의 Clarity Plus Digital PCR system 자세히 보기 >>
